PROFESSIONAL SUMMARY

Third-year AI & Data Science undergraduate (CGPA 9.33/10, Department Rank 3 in Semester 4) with hands-on experience across 8+ AI, data-analytics, and web-development projects, plus internships at Algoryx Technologies (Python Development), THIRANEX, Deloitte (Forage), and MyCaptain. Selected among 75 nationally competing teams at the Smart India Hackathon (as Team NagarNiti) and named Runner-Up at Datathon for a Power BI election-analytics dashboard. Skilled in Python, SQL, and machine learning fundamentals, with practical exposure to Power BI, Excel, and full-stack development. Seeking a Data Analyst / AI-ML Internship to apply technical and analytical skills to real-world problems.

TECHNICAL SKILLS

Programming Languages: Python (Advanced), SQL (Intermediate), C, C++, R
Python Libraries: NumPy, Pandas, Matplotlib, Scikit-learn
Data Analytics & Visualization: SQL, Power BI, Microsoft Excel, Exploratory Data Analysis, Data Cleaning & Wrangling
Web Technologies: HTML, CSS, JavaScript, Flask
Tools & Platforms: Jupyter Notebook, VS Code, Git, GitHub (active project portfolio)
Core Competencies: Machine Learning Fundamentals, Data Handling, Statistical Analysis, Problem Solving, Analytical & Logical Thinking, Teamwork, Communication, Leadership

EDUCATION

B.Tech in Artificial Intelligence & Data Science *2024 – Expected May 2028*
P. R. Pote Patil College of Engineering & Management, Amravati (SGBAU) | CGPA: 9.33/10
Coursework: Data Structures, Statistics, DBMS, Machine Learning Fundamentals
Academic Standing: Department Topper Rank 3 (Semester 4, AI & DS); consistently ranked Top 10 in all other semesters

Class XII (HSC), Maharashtra State Board *2024*
Percentage: 75%

WORK EXPERIENCE

Python Development Intern — Algoryx Technologies *Sep 5 – Oct 5, 2026*
- Completed a one-month Python Development internship at Algoryx Technologies (an MSME-registered company), applying Python programming skills to hands-on development work.
- Received a Certificate of Completion (Cert ID: ALG-PY-0210) signed by the Founder and Program Manager, recognizing work and contributions during the internship.

Data Analyst Intern — THIRANEX *Jun 12 – Jul 11, 2026 (Remote, Project-Based)*
- Worked as a remote, project-based Data Analyst Intern, completing hands-on data-analysis projects over a one-month engagement.
- Applied data cleaning, analysis, and reporting techniques to real project datasets under professional guidance.

Campus Ambassador Intern — MyCaptain *2026 (Paid Internship)*
- Represented MyCaptain on campus as a Campus Ambassador, promoting skill-development programs through outreach events, digital/social media campaigns, and peer referrals.
- Built relationships with program coordinators and student peer groups to drive engagement and program sign-ups, strengthening communication, networking, and leadership skills.
- Received a Letter of Endorsement from MyCaptain upon successful completion of the internship.

Data Analytics Job Simulation — Deloitte (Forage) *2024*
- Completed a virtual job simulation replicating Deloitte's real-world data analysis workflow, including data cleaning, business-insight generation, and stakeholder-ready reporting using Excel.

Virtual Internship Programs — AICTE–EduSkills *2024 – 2025*
- Completed structured, industry-mentored training modules in Cloud Computing, Networking, and Full-Stack Development fundamentals.

PROJECTS

Smart Student Assistant — AI-Based Web Application
- Developed a rule-based web assistant that analyzes self-reported workload inputs to flag student stress levels and recommend task prioritization.
- Built the backend with Python/Flask and the frontend with HTML/CSS, using conditional logic to generate personalized suggestions.

Smart Grievance Redressal System — Smart India Hackathon (Team NagarNiti)
- Selected among 75 competing teams nationally as part of Team NagarNiti (4 members) at the 24-hour national-level Smart India Hackathon, organized at Sipna College of Engineering and Technology, Amravati.
- Designed a civic-tech complaint management solution with rule-based workflows to automatically categorize and route citizen complaints, improving resolution traceability.

Election Analytics Dashboard — Datathon (Runner-Up)
- Built a Power BI dashboard analyzing real Lok Sabha Election 2024 dataset, competing against teams from multiple colleges.
- Placed as Runner-Up for delivering clear, data-driven visual insights on election trends and results.

WhatsApp-Based Grievance Management Interface (Prototype)
- Built a chatbot-style interface to capture and manage citizen complaints with automated backend responses.

Minor Projects: Fake News Headline Generator | Password Guessing Game | Phonebook Management System

- Fake News Headline Generator: console-based Python application that dynamically generates headlines using template logic.
- Password Guessing Game: implemented difficulty levels, hint system, and attempt tracking using core Python.
- Phonebook Management System: built a CRUD-based contact manager using Python dictionaries and functions.

CERTIFICATIONS

- Algoryx Technologies – Python Development Internship, Certificate of Completion (ALG-PY-0210)
- NPTEL – Python for Data Science (Elite Certification)
- NPTEL – Database Management System (Elite Certification, 63% consolidated score)
- NPTEL – Enhancing Soft Skills and Personality (Silver Medal)
- DevOps Certification – Exlearn Technologies
- AICTE–EduSkills Certification
- Institution of Engineers (India) – Student Chapter Membership Certificate
- Google Developer Group (GDG) – Participation Certificate

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Report Writer — Forum of Artificial Intelligence Developers (FAID) *2025 – 2026*

- Documented technical events and supported AI-related departmental initiatives.

Class Representative *2024 – 2025*

- Coordinated between faculty and students for two semesters (first year) as Class Representative.
